The reason I'm in America along with so many critical people who built SpaceX, Tesla and hundreds of other companies that made America strong is because of H1B.

Take a big step back and FUCK YOURSELF in the face. I will go to war on this issue the likes of which you cannot possibly comprehend.

Have you considered moving Space X, Tesla, and all those other companies to India? You would have 1.5 billion Indians ready to work, and you wouldn't even have to deal with the visa process or with lazy, dumb White Americans who complain about jobs going to foreigners. Good luck!

Was Elon a H1B visa worker

Answer by Grok

No, Elon Musk was not an H1B visa worker. He is a South African-born Canadian-American entrepreneur who moved to the United States on an F-1 visa for education and later became a U.S. citizen.
